- ❖ The fields marked with a star indicate that they do not apply to all students.
- ❖ The regular academic year lasts for eight months, and is preceded by the pre-term language, economics and core courses program in September.
- ❖ Those who wish/need to attend pre-term should also take into consideration an extra months' room and board as well as the pre-term fees, which are not included above.
- ❖ Average living expenses are estimated at €900 per month. This is an average figure based on a fairly recent student survey. However, depending on your standard of living you may spend less or more.
- ❖ Students with dollar-based assets should be aware that exchange rate fluctuations can significantly increase or reduce the above amounts. For more information please visit this [link](#).
- ❖ **The estimated minimum student budget for the eight month academic year is €39,995.** This takes into consideration that some students will not attend pre-term, and others - especially EU citizens - will save on health insurance and travel
